About This Content

Spanning the North Wales Coast Line from Crewe to Llandudno, and also featuring the iconic Conwy Castle across 67 miles of cross-border railway line, Train Simulator's North Wales Coastal route marries seaside views with both local and inter-city services from Arriva Trains Wales and Virgin Trains West Coast.

Ever since the Act of Union in 1801, which saw Ireland become part of the United Kingdom, people have strived to improve the connection between the two isles. In the early 19th Century, a combination of horse-drawn transport and sailing ships was the only option; that was until the 1840s, when the Chester and Crewe Railway and later, the Chester and Holyhead Railway were incorporated.

The full line was soon completed in 1848. Irish Mail would regularly work the line from London to Holyhead, and the LNWR, being in control of the West Coast Main Line and the line to Holyhead soon after, saw an opportunity for a spike in tourist traffic. Trains were put on to serve seaside resorts like Rhyl, Colwyn Bay and along the Llandudno branch, setting in stone the line's popularity. This tale would continue through the Big Four, British Railways and Sectorisation eras, and despite freight being less common today, the line has remained a local and long-distance passenger haven with over 90 trains a day.

Visit the seaside today with North Wales Coastal: Crewe – Llandudno, featuring the Virgin Trains BR Class 221 “Super Voyager”, and Arriva Trains Wales’ BR Class 158 “Express Sprinter” and BR Class 175 “Coradia” DMUs.

Things I like:

- Usual standard of high quality scenery.
- Accurately modelled stations.
- Good textures and reasonable physics on the rolling stock.
- A sensible amount of AI in the quick drives.
- Holyhead extension now available for a reasonable price.

Things I don't like:

- Sounds are quite bad but are tolerable.
- Texture glitch still present in the Class 158 cab side window.
- Scenarios are not that exciting.

It's a bit of a sightseeing route, with interesting landmarks dotted along the route. Most of the route is flat with few gradients, and you'll find stations can be up to 20 miles apart, good if you fancy a more relaxed journey. Somewhat similar in character to the Riviera Line, although a lot longer and a bit more varied. Only real downside is the usual case of DTG making a fantastic quality route but being a bit lazy with the rolling stock.

Would I buy this route again? Yes, definitely.

Score out of ten: 9/10.. Really amazing route. \u00a324.99 is way too expensive though.. Things I like:
